FittedValue

$R^2 = 0.1$

A scatter plot showing the relationship between FittedValue (x-axis) and PhylogeneticResiduals (y-axis). The x-axis ranges from approximately -1 to 6, with major ticks at 0, 2, 4, and 6. The y-axis ranges from -1.0 to 0.5, with major ticks at -1.0, -0.5, 0.0, and 0.5. The plot contains numerous black data points. A solid blue line represents a smoothed trend, which is nearly horizontal at y=0. A light gray shaded area around the blue line indicates the confidence interval. The text $R^2 = 0.1$ is located in the bottom right corner of the plot area.
